

# Touch+Vote *live audience feedback*

Transform your events  
with captivating interactivity

TouchnVote is an audience response system.  
Submit questions to the participants,  
watch results add up in real time.

## The audience can participate :

- By connecting to a web app with any smartphone
- By sending a tweet from any twitter account
- By sending a text message from any mobile phone

## You can submit to the audience :

- Multiple choice questions
- Numeric questions
- Open questions

## You are in total control :

- Events administration web-based platform
- Live results broadcasting on large screens
- Open questions moderation
- Treatment and detailed report of all collected data
